

Introducing the U|Pod™ ...

Completely finished kitchen /shower /toilet /laundry modules.

No more services and finishes trade problems. Direct from our factory – roll or drop straight into your project.

Just hook up - leave the hard parts to us.

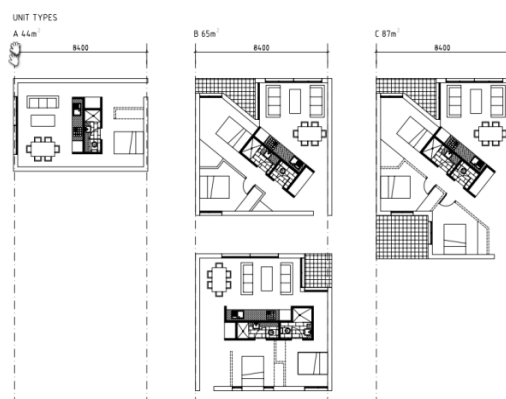

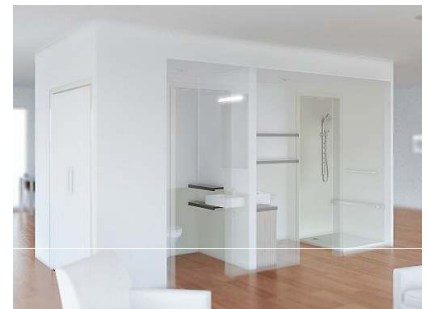

Higher Quality, Cheaper Cost, Superior Finishes, Total Solutions

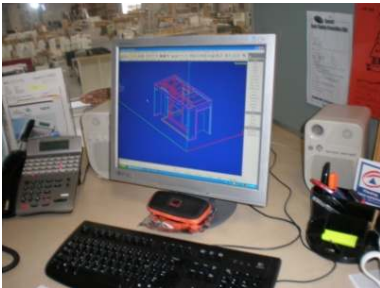

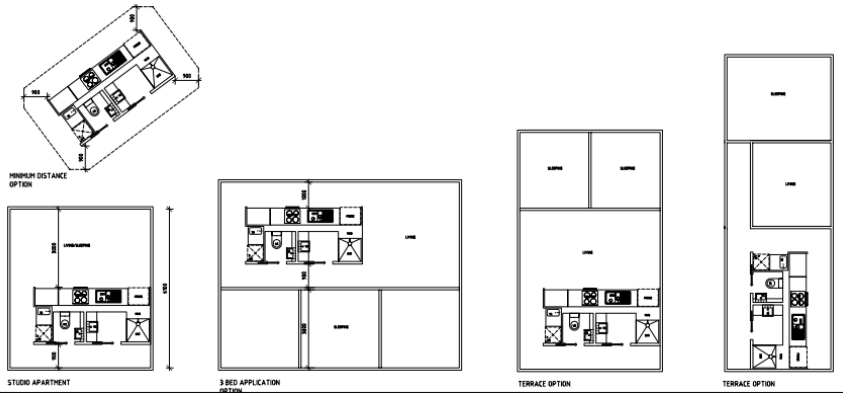

Superior Housing Solutions design and manufacture a range of the highest quality U|Pod's – utility modules including kitchens, bathrooms, laundries, ensuites, walk-in robes and toilets.

U|pod's come completely finished, transported to site on a truck and wheeled or lifted into position. Builders need only rough-in services to a single point for installation.

Our computerized machinery allows tolerances and quality that cannot be matched with onsite construction of these complicated building components. An engineered steel frame gives total structural confidence. Higher quality finishes are achieved. Reduction in on site finishes trades, shorter construction times and reduced costs.

Choose from our standard designs or talk to our designers about creating a project specific design for your unique application - we can customize for orders over 20 units.

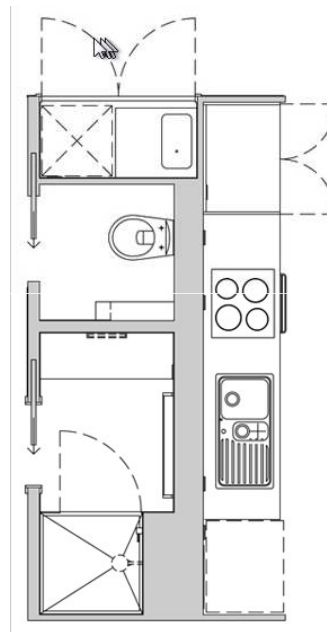

Applications are endless and our U-pods can complement a large variety of external building shapes and arrangements.

- Apartments
- Remote residential
- Eco and green buildings
- High tech
- Low lifecycle cost

Consider partnering with us. We supply all the hard parts including our U|pod completely finished kitchen /shower /toilet /laundry modules. No more services and finishes trade problems. Direct from our factory – drop straight into your project. Just hook up.

We can also supply design, computations and permitting paperwork.

Visit our website for more information and to request further information

Superior Housing Solutions manufactures from its facility in Melbourne's southeast and can transport throughout Australia and Asia.
